## Dr. S.K. Gupta

Chairman

*We must never relent in our efforts to resolve conflicts through diplomacy and through all of the instruments bestowed by the Charter of the United Nations.*

It is an honour to extend an invitation to the aspiring young delegates across schools to be the members of **VSPK's MUN**. Our aim is to sensitize the learners to the contentious issues which the world is grappling with and to come up with solutions to resolve them. Our youth has the ideals as well as the attitude to change the world. We need to give directions to their potential and channelize their energy towards positive pursuits to inspire hope of creating a better world for them to thrive in.

We are simulating a number of Committees with interesting agendas to bring forth animated discussions with arguments and counter-arguments flying across Committee rooms. **VSPK** International School, during its 22 years journey in pursuit of educational excellence, has strived to inculcate values that will help learners grow to be responsive and responsible citizens through holistic educational experiences that mirror UN's approach towards building a peaceful, united and prosperous society. Our institution's mission is to train the intellect and develop attitudes among future leaders so that they are committed to the task of bringing reform that creates a better tomorrow.

To my **TEACHERS AND STUDENTS** who, through their relentless efforts, have made this MUN possible, my congratulations and best wishes. May the Conference go off well and may the diversity of opinions expressed in various Committees lead to churning of young, dynamic minds. I do hope that all the delegates take back happy memories of time well spent at the Conference.

God bless and all the best.

*“We can make things better. But only if we go forward with our eyes open. We've seen amazing progress in almost every dimension of human affairs across the last century. But that progress is fragile. We need to be its constant and vigilant guards.”*

In pursuit of our mission of creating learning experiences that ensure holistic development of our students, VSPK International School is organizing its 2nd MUN conference with the aim of developing global citizenship attributes among learners hoping to thrive in an inclusive society. VSPK MUN is a 2-day academic conference for young minds from around the country that aims at educating and sensitizing them towards a more inclusive philosophy.

The world today that is plagued by myriad issues and challenges demands immediate action to ensure that we heal the world of its maladies and restore its dignity through the development of peace and harmony. The daunting task of changing the world requires every individual contribution in the collective endeavours to bring desirable reform in the global society. VSPK MUN is one such endeavour which introduces young people to the fascinating realities and complexities of international relations through simulation of international organizations, where the student leaders get a chance to play a substantive role.

Through this MUN conference, we endeavour to shape the perceptions of tomorrow's leaders by engaging them in truly diplomatic debates in intense, pressure-packed environment that would be testing the composure, as well as intellect of the delegates as they strive to reach real-life solutions for the global issues thereby strengthening the environment for development of international peace and cooperation.

Director

*“At Model UN, you broaden your horizons. By learning and networking, you can be a part of the UN's efforts to establish peace, secure human rights and enable all people to live in dignity.”*

Model United Nations provides a great platform to create acceptance for other's perspective and thus facilitate development of 21st century skills. We, at VSPK, empower our young learners to build a positive approach, to analyze and think critically and logically.

United Nations for over eight decades has been a “constant and vigilant guard” of progress, peace and security. To move to a future with more justice, more peace, and more prosperity, talented, thoughtful people must commit to engage in the great struggle to craft a better world and brighter future. As the delegates model the work done by the United Nations, they will take up that struggle, acting as the vigilant guards. I extend my heartiest welcome to all the young delegates who will move forward in their respective journey of debate to diplomacy at VSPK's MUN.

Principal

*“Diplomatic unity, collaboration, compromise and lots of determination are how we will make change in society and how we will ensure a better tomorrow”*

With newer challenges and toughest debates, **VSPK** International School is all geared up to unleash its second MUN. Continuing the legacy of its successful start in the previous year, the theme of this year's MUN is to **INITIATE, INNOVATE and INSPIRE**.

It is a student led and managed initiative and is being organized by students of **VSPK** International School. MUN involves and teaches participants with opportunity for research along with enhancing their public speaking, debating, logical reasoning skills, critical thinking, teamwork and leadership attributes. As the Principal, it is my pleasure to extend a warm invitation to students in order to stimulate their participation in this conference that will engage the bright young minds in productive dialogue and facilitate development of strong bonds of friendship. The conference will draw attention to fundamental issues of global importance through varied committees where by finding concrete solutions to global problems will be the primary agenda.

The youth is the reservoir of nation's potential. They must develop qualities of personal integrity, self discipline and broad mindedness to ensure optimum productive outcome of their innate abilities. The youthful period is a period of passion, emotion, activities and vigor. We are organizing this conference in the hope that we are able to provide a platform for the delegates to deliberate, debate and voice their opinions to help inculcate humane values that prioritize prosperity for the larger international community over narrow regional or national interest. It would groom the young ignited minds to emerge as responsible global leaders and would prove to be an experiential learning tool. I hope the students of various institutions earnestly participate in our MUN and make it a success!

## Mr. Samvardhan Tiwari

Secretary General

It is my honour to serve as the Secretary General for the **VSPK** Inter School MUN 2025. From my early school days, I have always been an avid debater and have participated in multiple public speaking forums. I participated in my first MUN, when I was in my 9th grade and my journey in the realm of public speaking has changed ever since then.

The two day conference is not just an opportunity to grab another certificate, rather participating in an MUN conference, is a life changing experience in itself. You get the opportunity to get into the shoes of a delegate, defending and advocating for the rights of your country or you get the chance to be a journalist and delve into writing investigative pieces, during the conference. I believe, MUNs are a very unique format of debate and discussion, which provides a holistic experience to all the participants.

I'll be forever be grateful for this wonderful opportunity bestowed upon me by my alma mater, **VSPK** family. I would like to extend a heartfelt invite to all the delegates and journalists for **VSPK** Inter School MUN 2025-26.
