Dr. S.K. Gupta Chairman

“We can make things better. But only if we go forward with our eyes open. We've seen amazing progress in almost every dimension of human affairs across the last century. But that progress is fragile. We need to be its constant and vigilant guards.”

It gives me great pleasure to welcome you to VSPK International School's Model United Nations Conference (MUN). Our aim is to sensitize the learners to the contentious issues which the world is grappling with, and to come up with solutions to resolve them. Our youth has the ideals as well as the attitude to change the world. We need to give direction to their potential and channelize their energy towards positive pursuits to inspire hope of creating a better world for them to thrive in.

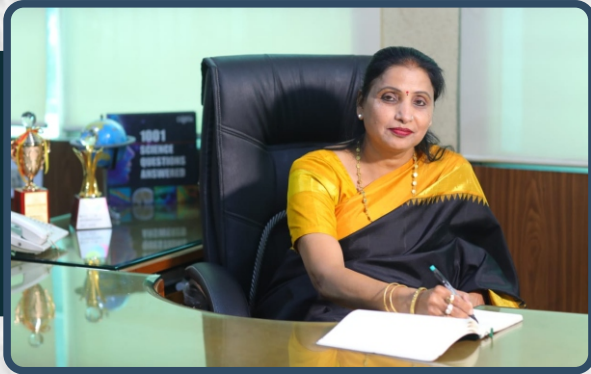

We are simulating a number of Committees with interesting agendas to bring forth animated discussions, with arguments and counter-arguments flying across Committee rooms. We at VSPK empower our young learners to build a positive approach, to analyse and think critically and logically, there by making them responsive and responsible global citizens. Model United Nations provides a great platform to create acceptance for other's perspective and thus facilitate development of 21st century skills.

United Nations for over eight decades has been a “constant and vigilant guard” of progress, peace and security. VSPK International School, during its 20 years journey in pursuit of educational excellence, has tried to develop global citizenship attributes through holistic educational experiences that mirror UN's approach towards building a peaceful, united and prosperous society. Our institution's mission is to train the intellect and nurture the spirit of the future leaders so that they are endowed with the values needed to bring desirable changes to create a better tomorrow. At VSPK's MUN conference the delegates will model those values and carry forward the fundamental work. To move to a future with more justice, more peace, and more prosperity, talented, thoughtful people must commit to engage in the great struggle to craft a better world and brighter future. As the delegates model the work done by the United Nations, they will take up that struggle, acting as the vigilant guards.

To my TEACHERS AND STUDENTS who are working so hard and so enthusiastically to put this MUN together, my congratulations and best wishes. May the Conference go off well and may the diversity of opinions expressed in various Committees lead to a churning of young, dynamic minds.

I do hope that all the delegates take back happy memories of time well spent at the Conference. God bless and all the best.

“Diplomatic unity, collaboration, compromise and lots of determination are how we will make change in society and how we will ensure a better tomorrow”

The state of the today's world pressed by myriad issues and challenges demands immediate action to ensure that we heal the world of its maladies and restore its dignity through the development of peace and harmony.

The daunting task of changing the world requires every individual to contribute in the collective endeavours to make this world a better place. VSPK MUN is one such endeavours which introduces young people to the fascinating realities and complexities of international relations through simulation of international organizations, where the student leaders get a chance to play a substantive role.

In pursuit of our mission of providing learning experiences that ensure holistic development of our students, VSPK International School is organizing the MUN conference with the aim of developing global citizenship attributes among learners hoping to thrive in an inclusive society. VSPK MUN is a 2-day academic conference for young minds from around the country that aims at educating and sensitising them towards a more inclusive philosophy.

Through this MUN conference, we endeavour to shape the perceptions of tomorrow's leaders by engaging them in truly diplomatic debates in intense, pressure-packed environment that would be testing the composure, as well as intellect of the delegates as they strive to reach real-life solutions for the global issues thereby strengthening the environment for development of international peace and cooperation.

Dr. Sanchita Gupta Principal

“At Model UN, you broaden your horizons. By learning and networking, you can be a part of the UN's efforts to establish peace, secure human rights and enable all people to live in dignity.”

We're very excited that our school is hosting Model United Nations Conference which is a student led and managed initiative and is being organized by students of VSPK International School. MUN involves and teaches participants researching, public speaking, debating, and writing skills, in addition to critical thinking, teamwork and leadership abilities. As the Principal, it is my pleasure to extend an invitation to students to participate in this conference that will engage the bright young minds in productive dialogue and facilitate development of strong bonds of friendship. The conference will draw attention to fundamental issues of global importance through varied committees whereby finding concrete solutions to global problems will be the primary agenda.

The youth is the reservoir of nation's potential. They must develop qualities of personal integrity, selfdiscipline and broad mindedness to ensure optimum productive outcome from their innate abilities. The youthful period is a period of passion, emotion, activities and vigor. We are organizing this conference in the hope that we are able to provide a platform for the delegates to deliberate, debate and voice their opinions to help inculcate humane values that prioritize prosperity for the larger international community over narrow regional or national interest. It would groom the young ignited minds to emerge as responsible global leaders and would prove to be an experiential learning tool. I hope the students of various institutions earnestly participate in our MUN and make it a success!

VSPK MUN stands as a transformative platform dedicated to shaping the leaders of tomorrow while fostering a unique connection between knowledge and debating. Our mission is to train and empower young minds with the skills, knowledge, and values needed to navigate the challenge of the future. Through Model United Nations, VSPK MUN equips participants with leadership acumen, critical thinking, strong debating, and problem-solving skills. We believe in harnessing the potential within each individual, cultivating a generation poised to make meaningful contributions to society. As an alumnus of this institution, I feel honored to present this MUN in front of numerous bright young minds. The five committees of the tournament, such as UNGA, UNHRC, UNSC, AIPPM, and IP present a diverse tapestry of argumentative motions and bring forward the issues of both national and international concerns. I am indeed delighted to present this diaspora of discussion and dialogue among the young leaders of the future.
